## **ECCO Select Wins Contract to Support Department of Defense Information Technology Initiatives**

**August 30, 2010, Kansas City, MO** –ECCO Select Corporation announced that it has been awarded a contract with the Department of the Army at Fort Leavenworth, KS in support of the Battle Command Knowledge System (BCKS) Knowledge Technology Division (KTD). ECCO Select will be providing a broad array of technical IT support for the BCKS programs. BCKS is the US Army's premier Knowledge Management system that hosts over 60 professional forums with membership of over 180,000 users globally. KTD also provides hosting services for a number of Warfighter Forums and provides development support for the unit knowledge portals.

"We are pleased that the Army has recognized our Information Technology expertise and our ability to design, build and maintain web portals and applications," said ECCO Select President Jeanette Prenger. "We are extremely proud to be provided the opportunity, and selected to support our men and women serving our country. We fully recognize the essential role that the BCKS program plays in providing critical information to our troops both here and abroad."

Since 1995 ECCO Select has been a leading provider of professional and information technology consulting services to both public and private sector entities. ECCO Select is a SBA certified 8(a) Small Disadvantaged Business, Women and Minority Owned Business Enterprise headquartered in Kansas City, MO
